

# How MindStudio Crafted a No-Code Pathway for RAG App Builders

Dmitry Shapiro & Sean Thielen | MindStudio

# Speaker: Dmitry Shapiro & Sean Thielen, MindStudio

Dmitry Shapiro, the CEO of MindStudio, ran product on three machine learning teams at Google from 2012-2016, was CTO of MySpace Music, and built two other venture-backed companies.

Sean Thielen is a self-taught developer who studied Literature in college. The two met on Hacker News. Together they ushered in the new era of the metaverse by founding GoMeta in 2016. Soon after they founded Koji, one of the most innovative interactive content companies. Now their latest venture, MindStudio is a platform that allows for rapid creation of model-agnostic AI-powered applications.
